

Gajendra Singh Panwar

gajendrasinghpanwar.bsc21@acropolis.edu.in / 9685791883 / Indore, Madhya Pradesh

Summary

Proven leader with strong time management, problem-solving, and communication skills. Proficient in C++, Java, Python, and front-end development. Known for effective team management and delivering innovative solutions.

Skills

Communication skills, Time management, Leadership, Microsoft excel, English, Front-End Development, Java, C++, Version Control, Python, SQL

Projects

Portfolio

Created a dynamic, responsive portfolio using HTML, CSS, and JS. Showcases projects and skills with smooth navigation for an engaging user experience.

Weather app

Dynamic weather app using HTML, CSS, and JS. Fetches real-time API data to display personalized weather forecasts based on users' locations, providing accurate and tailored weather information.

Currency Converter

Created a Java Swing-based currency converter leveraging real-time API data. Enables seamless currency conversion with live exchange rates, empowering users to convert currencies of their choice accurately and efficiently.

ATM Machine Interface

Developed an ATM interface using Java Swing, facilitating key banking operations including depositing money, withdrawing funds, and checking account balances. This user-friendly interface ensures a seamless banking experience, allowing customers to perform these essential transactions efficiently.
